
SKILLPARK iPack
Privacy Policy

1. iPack application does not collect any user data from Your system.
2. Since application is not gathering any system or user information no data will be shared with 3rd party companies/users.
3. If iPack application will take possession of any information through its database communication, this information will not be used or shared and will be deleted as soon as it is no longer necessary for proper application use.
4. Since no user information is being collected and stored End User does not have to request for its removal.
5. Authors of iPack application are not responsible for any data provided when creating accounts, signing in or downloading software from Autodesk App Store.
